Dear Hiring Manager,

I'm writing to apply for the Admin Officer role at Jobs Statewide. Helping people move into sustainable employment is genuinely meaningful work, and I'd bring real care, organisation, and attention to detail to supporting job seekers through your programs.

As Project Manager on a university capstone, I led a 5-person team to deliver Call-a-Technician (callatechnician.com.au), a live booking platform now used in production by a real business. That role had me coordinating people and activities, acting as the direct point of contact for a real client, and maintaining accurate records and documentation throughout delivery — the same coordination and compliance discipline this role calls for when gathering evidence and tracking outcomes.

I'm confident using IT systems and databases — beyond that project, I've independently built and deployed two more live software products over the past year, so digital tools and data entry are second nature to me, not a learning curve. I also bring two years of direct, recurring client-facing experience from VIP Cleaning Services, where I consistently scored 95% in client quality surveys and introduced standardised checklists that lifted site quality scores by 25% — proof I notice the details that matter and follow through on them.

I communicate clearly with people from all backgrounds, stay organised under a fast pace, and genuinely enjoy helping people get where they're trying to go. I'd welcome the opportunity to bring that to your team.

Thank you for considering my application.

Kind regards,

Priyanshu
