SUMMARY

IT graduate with a Bachelor of Information Technology and a Google IT Support Professional Certificate, with a genuine passion for troubleshooting and a logical, methodical approach to solving problems. I have sound understanding of Windows desktop support, Active Directory, DNS, DHCP, Group Policy, and Microsoft 365 technologies through both formal study and hands-on personal projects. I've built and now operate three live production systems, which means I'm comfortable working unsupervised, following a system through end-to-end, and documenting my work clearly. I'm friendly, communicate well, and genuinely enjoy helping people solve technical problems. Open to relocating to Perth for the right opportunity.

TECHNICAL SKILLS

Desktop & Server Support: Windows 10/11, Windows Server fundamentals, virtualised environments, hardware/software troubleshooting

Microsoft 365: Exchange Online, SharePoint, Teams, OneDrive, Office applications, basic admin and support

Hardware: Physical computer components, server components, basic NAS/SAN familiarity, peripherals troubleshooting

Directory & Identity: Active Directory, DNS, DHCP, Group Policy, Azure AD / Entra ID, MFA, RBAC

Networking: Switching, routing, VLAN, WLAN, WAN, VPNs, TCP/IP, subnetting, network diagnostics

Service & Documentation: Ticketing-style workflow logic, clear technical documentation, knowledge base habits, logical process of elimination

CORE COMPETENCIES

Friendly & Approachable

Strong Communication

Works Well Unsupervised

Team Player

Passion for IT

PROJECTS

TicketDesk — Help-Desk Ticketing Platform

Personal Project | 2025

Live: ticketdesk-app.onrender.com · GitHub: github.com/Priyanshukainwal0/ticketdesk

- Designed and built a ticketing system modelling the full support lifecycle — log, prioritise, assign, resolve, document — applying a structured, logical process to every issue type.
- Maintained clear, current technical documentation for every part of the system, the same habit a helpdesk role depends on for knowledge base articles.

SkyOps — Infrastructure Monitoring Platform

Personal Project | 2025

Live: skyops-api-8dn9.onrender.com · GitHub: github.com/Priyanshukainwal0/skyops

- Built and personally operate a background health-check service monitoring system status every 60 seconds, working independently to detect and respond to issues without supervision.
- Used a virtualised, containerised infrastructure setup (Docker, Kubernetes) — practical exposure to the kind of virtual environments this role's troubleshooting will involve.

Call-a-Technician — Full-Stack Platform & Team Delivery

University Capstone | 2024–2025

Live: callatechnician.com.au · GitHub: github.com/Priyanshukainwal0/call-a-technician

- Led a 5-person team as Project Manager, communicating clearly with a real external client throughout delivery — direct experience with the strong communication skills this role asks for.

WORK EXPERIENCE

Warehouse Operator

Dec 2023 – Jan 2025

Electrolux Home Products · Adelaide, SA

- Maintained 99.5% accuracy across 200–300 orders per day, requiring consistent punctuality, attention to detail, and reliable follow-through.

Commercial Cleaner

Aug 2023 – Present

VIP Cleaning Services · Adelaide, SA

- Worked unsupervised across multiple client sites, consistently scoring 95% in client quality surveys through clear communication and dependable service.

EDUCATION

Bachelor of Information Technology

Federation University Australia · Adelaide, SA

- Relevant units: Networking, Cybersecurity, Databases, Systems Analysis, Software Engineering.

Federation University Australia
