SUMMARY

IT graduate with a Bachelor of Information Technology, ready to apply strong analytical and configuration skills to supporting Eldercare's business application systems. I want to be upfront: I don't yet have proven experience implementing or supporting a specific Enterprise-level platform such as a QMS, ERP, CRM, or Clinical System. What I do bring is direct, hands-on experience with the same underlying work — translating business requirements into technical specifications, configuring system workflows and access, testing changes before release, and training users on new systems. As Project Manager on a university capstone, I led a 5-person team to gather requirements directly from a real client and configure a working system around their actual operational needs, then trained stakeholders on how to use it. I've also independently built and tested two further production systems, applying the same structured, detail-focused approach. I communicate clearly with both technical and non-technical audiences and genuinely care about getting the details right.

TECHNICAL SKILLS

- Systems Analysis:** Requirements gathering, functional/technical specification writing, workflow design, system configuration
- Testing & Release Management:** Test planning, automated test suites, pre-release verification, change management
- User Support & Training:** User onboarding, training delivery, system access management, documentation for non-technical audiences
- Vendor & Stakeholder Coordination:** Working with external stakeholders to resolve issues, translating feedback into system improvements
- Reporting & Data:** SQL (PostgreSQL, MySQL, SQLite), report design, REST APIs, system interfaces
- Documentation:** Functional specifications, knowledge base articles, process documentation, training materials

CORE COMPETENCIES

- Problem Solving
- Attention to Detail
- Outstanding Customer Service
- Tailored Communication
- Organisation & Prioritisation
- Results-Driven
- Respect & Accountability
- Fast Learner

PROJECTS

Call-a-Technician — Technician Dispatch & Booking Platform University Capstone | 2024–2025
Live: callatechnician.com.au · GitHub: github.com/Priyanshukainwal0/call-a-technician · Role: **Project Manager & Full-Stack Developer**

- As **Project Manager**, led a 5-person team from initial client requirements through to a live production launch — collected, clarified, and translated a real client's business requirements into functional and technical specifications for the development team.
- Configured an 8-stage job workflow, system access roles, and reporting dashboards around the client's actual operational needs — the same system configuration and customisation this role requires.
- Trained stakeholders on how to use the finished platform once delivered, communicating clearly with a non-technical audience — direct experience with the user training this role calls for.
- Delivered a real product still in production use by a real business today — proof of reliable, accountable follow-through from requirements to outcome.

TicketDesk — Production System with Testing & Release Discipline Personal Project | 2025
Live: ticketdesk-app.onrender.com · GitHub: github.com/Priyanshukainwal0/ticketdesk

- Wrote a 23-test automated suite to verify system changes before they reached production — the same testing-before-release discipline this role applies when validating new system versions with business users.
- Designed system reports and data structures to support business reporting needs, with documentation kept current throughout.

SkyOps — Infrastructure Monitoring Platform Personal Project | 2025
Live: skyops-api-8dn9.onrender.com · GitHub: github.com/Priyanshukainwal0/skyops

- Built and personally operate a live monitoring system, identifying improvement opportunities and applying changes through a structured, documented process.

WORK EXPERIENCE

Commercial Cleaner

Aug 2023 – Present

VIP Cleaning Services · Adelaide, SA

- Worked directly with clients on a recurring basis, consistently scoring 95% in client quality surveys through outstanding customer service and clear, tailored communication.

Warehouse Operator

Dec 2023 – Jan 2025

Electrolux Home Products · Adelaide, SA

- Maintained 99.5% accuracy across 200–300 orders per day, with zero lost-time incidents and full WHS compliance — strict attention to detail and adherence to procedures.

EDUCATION

Bachelor of Information Technology

Federation University Australia

Federation University Australia · Adelaide, SA

CERTIFICATIONS

Google IT Support Professional Certificate

Coursera / Google · Nov 2025 – Jan 2026

Microsoft Azure AI Essentials

LinkedIn Learning · Feb 2025 – May 2025

Career Essentials in Cybersecurity

Microsoft · Mar 2025 – May 2025

Generative AI Automation Specialization

Vanderbilt University · Apr 2025 – May 2025
