SUMMARY

Competitive, coachable graduate with a Bachelor of Information Technology and two years of direct, recurring client-facing experience, looking to build a real career rather than just collect a pay cheque. I'm genuinely driven to improve — I taught myself to independently design, build, and launch three live software products over the past year with zero formal training, simply because I wanted to get better and I went after it. I led a 5-person team as Project Manager on a real client project, which gave me a first taste of leadership, decision-making under pressure, and accountability for a result — exactly the kind of skill-building Minear Group's program offers. I'm reliable, positive, great with people, and ready to challenge myself for long-term growth.

CORE STRENGTHS

- Competitive
- Reliable
- Coachable
- Positive Attitude
- Great With People
- Driven to Improve
- Goal Setting
- Leadership Potential

PROJECTS — DRIVE & LEADERSHIP BEYOND THE CLASSROOM

Call-a-Technician — Technician Dispatch & Booking Platform

University Capstone | 2024–2025
Live: callatechnician.com.au · GitHub: github.com/Priyanshukainwal0/call-a-technician · Role: **Project Manager & Full-Stack Developer**

- **As Project Manager**, led a 5-person team from initial client requirements through to a live production launch — my first real experience leading people toward a shared goal, setting expectations, and being accountable for the outcome.
- Built and maintained the client relationship directly throughout delivery — the same engagement and trust-building this role asks for when representing organisations to the public.
- Delivered a real product still in production use by a real business today — proof I can turn ambition into a real, measurable result.

TicketDesk — Help-Desk Ticketing Platform

Personal Project | 2025
Live: ticketdesk-app.onrender.com · GitHub: github.com/Priyanshukainwal0/ticketdesk

- Identified a problem and built a complete, working solution from scratch on my own initiative — no one assigned the task, I just set the goal and went after it.

SkyOps — Live Monitoring Platform

Personal Project | 2025
Live: skyops-api-8dn9.onrender.com · GitHub: github.com/Priyanshukainwal0/skyops

- Built and personally operate a live system from scratch — proof I can learn something completely new, fast, and keep pushing until it actually works.

WORK EXPERIENCE

Commercial Cleaner

Aug 2023 – Present
VIP Cleaning Services · Adelaide, SA

- Worked directly with clients on a recurring basis, consistently scoring 95% in client quality surveys — building rapport and trust through clear, friendly, positive communication.
- Identified a gap in service consistency and introduced standardised checklists that lifted site quality scores by 25% — driven to improve, not satisfied with "good enough."

Warehouse Operator

Dec 2023 – Jan 2025
Electrolux Home Products · Adelaide, SA

- Maintained 99.5% accuracy across 200–300 orders per day in a fast-paced, high-volume environment, staying competitive and resilient under sustained pressure.
- Identified and implemented a process improvement that cut picking time by 20% on my own initiative — ambition and drive applied to make a tangible difference.
