SUMMARY

IT professional with a Bachelor of IT and a Google IT Support Professional Certificate, with practical knowledge of Microsoft 365 administration (Exchange Online, SharePoint, Teams), Entra ID, Intune, Active Directory, and Windows desktop/server environments. I don't yet have two years of paid MSP or multi-client experience, but I've spent the past year building and personally operating three live production systems, which means I genuinely enjoy solving problems, keep clean and accurate documentation as habit rather than obligation, and I'm comfortable translating technical issues into plain English for non-technical people. I also bring direct project-coordination experience, having led a 5-person team as Project Manager delivering a live platform for a real external client. I hold a current driver's licence and have my own reliable vehicle for onsite work.

TECHNICAL SKILLS

- Microsoft 365 & Identity:** Exchange Online, SharePoint, Teams, Entra ID, Intune (endpoint management), MFA, RBAC, conditional access
- Windows Environments:** Windows 10/11 desktop, Windows Server fundamentals, Active Directory, Group Policy, user account management
- Networking:** DNS, DHCP, VPNs, firewalls, managed switches (fundamentals), TCP/IP, subnetting, network diagnostics
- Hardware & Deployment:** PC builds, imaging, standard operating environment configuration, hardware/software diagnostics, peripherals troubleshooting
- Service & Documentation:** Ticketing/PSA-style workflow logic, accurate work logging, knowledge base documentation, ITIL-aligned incident handling
- Cyber Security Awareness:** ACSC Essential Eight, NIST CSF 2.0, least-privilege access, basic vulnerability awareness

CORE COMPETENCIES

- Customer Service Mindset
- Plain-English Communication
- Patience & Clarity
- Documentation Discipline
- Problem Solving
- Knowledge Sharing
- Project Coordination
- Fast Learner

PROJECTS

TicketDesk — Help-Desk Ticketing Platform Personal Project | 2025

Live: ticketdesk-app.onrender.com · GitHub: github.com/Priyanshukainwal0/ticketdesk

- Designed and built a ticketing system modelling the full support lifecycle — log, prioritise, assign, resolve, document — with clean, structured ticket data and auto-generated documentation for every part of the system.
- Built a monitoring stack (Prometheus + Grafana) for proactive issue detection, applying the same "catch it before the client calls" mindset MSP work requires.

SkyOps — Infrastructure Monitoring & Operational Support Personal Project | 2025

Live: skyops-api-8dn9.onrender.com · GitHub: github.com/Priyanshukainwal0/skyops

- Built and now personally operate a background health-check service that polls system status every 60 seconds, responding to incidents as they're detected — first-hand experience keeping a live system "up and running" the way clients expect.
- Maintained clear technical documentation throughout so the system's setup, deployment, and troubleshooting steps are easy for anyone to follow.

Call-a-Technician — Project Coordination & Client Support University Capstone | 2024–2025

Live: callatechnician.com.au · GitHub: github.com/Priyanshukainwal0/call-a-technician

- Led a 5-person team as Project Manager, coordinating an IT rollout (a full booking and operations platform) from requirements through to live deployment for a real external client — direct project-coordination experience your "highly regarded" criteria call out.
- Acted as the main point of contact between the client and the development team, translating technical progress into plain language and keeping the client informed throughout, exactly as this role asks of client communication.

WORK EXPERIENCE

Warehouse Operator Dec 2023 – Jan 2025

Electrolux Home Products · Adelaide, SA

- Maintained 99.5% accuracy across 200–300 orders per day in a fast-paced environment, requiring consistent focus and reliable follow-through.

Commercial Cleaner

Aug 2023 – Present

VIP Cleaning Services · Adelaide, SA

- Worked directly across multiple client sites, consistently scoring 95% in client quality surveys through clear communication and reliable service.

EDUCATION

Bachelor of Information Technology

Federation University Australia

Federation University Australia · Adelaide, SA

- Relevant units: Networking, Cybersecurity, Databases, Systems Analysis, Software Engineering.
