SUMMARY

IT graduate with a Bachelor of Information Technology and a sound foundation in networking, infrastructure, and connectivity concepts. I've built and now personally operate a live infrastructure platform with proactive monitoring of system health and connectivity — direct, hands-on experience with the service reliability mindset this role requires. As Project Manager on a university capstone, I led a 5-person team delivering a live platform for a real client, liaising directly with stakeholders, coordinating with team members, and maintaining clear documentation throughout. I follow documented processes carefully, communicate clearly, and stay organised under competing priorities. I'm genuinely excited about the opportunity to build practical, enterprise-level infrastructure experience supporting a health system that matters.

TECHNICAL SKILLS

Networking: TCP/IP, DNS, DHCP, VPN, firewalls, subnetting, Wi-Fi fundamentals, network diagnostics	Infrastructure: Docker, Kubernetes, virtualisation fundamentals, infrastructure-as-code (Terraform), cloud deployment
Monitoring & Reliability: Prometheus, Grafana, proactive health-check services, uptime/incident monitoring, service-level awareness	IT Support & Service Delivery: Incident/service request handling, ticketing workflow logic, stakeholder liaison, vendor coordination
Documentation: Technical documentation, knowledge base maintenance, asset/process documentation	Cyber Security Awareness: NIST CSF 2.0, ASD Essential Eight, least-privilege access, basic vulnerability awareness

CORE COMPETENCIES

Strong Communication

Teamwork

Organisational Skills

Follows Documented Processes

Reliability

Problem Solving

Stakeholder Liaison

Calm Under Competing Priorities

PROJECTS

Call-a-Technician — Technician Dispatch & Booking Platform University Capstone | 2024–2025
Live: callatechnician.com.au · GitHub: github.com/Priyanshukainwal0/call-a-technician · Role: **Project Manager & Full-Stack Developer**

- As **Project Manager**, led a 5-person team from initial client requirements through to a live production launch — liaised directly with a real external client, coordinated with team members across workstreams, and resolved issues as they arose.
- Built an 8-stage job workflow with a full audit trail and maintained accurate, current documentation across the project — the same documentation discipline this role requires for service requests and incidents.
- Delivered a real product still in production use by a real business today — proof of reliable, accountable follow-through.

SkyOps — Infrastructure Monitoring & DevOps Platform Personal Project | 2025
Live: skyops-api-8dn9.onrender.com · GitHub: github.com/Priyanshukainwal0/skyops

- Designed and deployed a complete infrastructure pipeline (Docker, Kubernetes, Helm, Terraform) with a background health-check service polling system status every 60 seconds — proactive monitoring to maintain service reliability and connectivity.
- Built a Grafana dashboard (request rate, P95 latency, error rate) for ongoing operational visibility, instrumented via Prometheus — the same infrastructure-modernisation and cyber-resilience mindset this team applies at enterprise scale.

TicketDesk — Help-Desk Ticketing Platform Personal Project | 2025
Live: ticketdesk-app.onrender.com · GitHub: github.com/Priyanshukainwal0/ticketdesk

- Designed a system for logging, prioritising, and resolving incidents and service requests, with documentation kept current throughout — direct practice with the incident/service request lifecycle this role supports.

WORK EXPERIENCE

Commercial Cleaner Aug 2023 – Present
VIP Cleaning Services · Adelaide, SA

- Worked directly with clients on a recurring basis, consistently scoring 95% in client quality surveys through clear communication and reliable service delivery.

Warehouse Operator

Dec 2023 – Jan 2025

Electrolux Home Products · Adelaide, SA

- Maintained 99.5% accuracy across 200–300 orders per day in a fast-paced environment, with zero lost-time incidents and full WHS compliance — strict adherence to documented processes and safety standards.

EDUCATION

Bachelor of Information Technology

Federation University Australia

Federation University Australia · Adelaide, SA

- Relevant units: Networking, Cybersecurity, Databases, Systems Analysis, Software Engineering.

CERTIFICATIONS

Google IT Support Professional Certificate

Coursera / Google · Nov 2025 – Jan 2026

Microsoft Azure AI Essentials

LinkedIn Learning · Feb 2025 – May 2025

Career Essentials in Cybersecurity

Microsoft · Mar 2025 – May 2025

Generative AI Automation Specialization

Vanderbilt University · Apr 2025 – May 2025
