SUMMARY

Recent IT graduate with a Bachelor of Information Technology and a genuine, hands-on track record across cloud platforms, cyber security, AI, and digital transformation — built through independently designing, deploying, and operating three live production systems over the past year. I understand how digital technology decisions connect to real business outcomes because I've been accountable for them personally: as Project Manager on a university capstone, I led a 5-person team through a full software delivery lifecycle for a real client, translating business requirements into a working system that's still running in production today. I hold certifications in Microsoft Azure AI and Generative AI Automation, giving me practical, certified exposure to the emerging technology space KPMG's Technology & Digital teams work within. I'm curious, analytically minded, collaborative, and excited about the pace of digital innovation in a consulting environment.

TECHNICAL SKILLS

Cloud Platforms: AWS (EC2), Microsoft Azure / Entra ID, Docker, Kubernetes, Helm, Terraform IaC, GitHub Actions CI/CD, cloud-native architecture

AI & Emerging Technology: Generative AI automation, Microsoft Azure AI, AI business application design, emerging tech evaluation and implementation

Software Engineering: Python (FastAPI), Node.js, JavaScript, React, REST APIs, automated testing (pytest, 23-test suite), Git

Cyber Security: NIST CSF 2.0, ASD Essential Eight, least-privilege access, security-aware system design, vulnerability awareness, incident monitoring

Data & Analytics: SQL (PostgreSQL/MySQL/SQLite), relational schema design, REST API data integration, live monitoring dashboards (Prometheus, Grafana)

Digital & Enterprise: Microsoft 365, SharePoint, Teams, Active Directory, Intune, workflow automation, digital user experience

CORE COMPETENCIES

- Curiosity & Analytical Mindset
- Problem Solving
- Stakeholder Communication
- Cross-Functional Collaboration
- Project Ownership
- Agile / Scrum Delivery
- Fast Learner
- Digital Innovation Mindset

PROJECTS

Call-a-Technician — Technician Dispatch & Booking Platform University Capstone | 2024–2025

Live: callatechnician.com.au · GitHub: github.com/Priyanshukainwal0/call-a-technician · Stack: Node.js, Express, MongoDB, JWT, React · Role: **Project Manager & Full-Stack Developer**

- As **Project Manager**, led a 5-person team from initial client requirements through to a live production launch, managing the full software delivery lifecycle in Agile/Scrum — real experience of how tech solutions come to life in a client-facing environment.
- Designed business process flows, role-based access control, and digital workflows around the client's actual operations — practical experience with the digital transformation design thinking KPMG's teams apply at scale.
- Delivered a real product still in production use by a real business today — accountable for outcomes, not just contributions.

SkyOps — Cloud Platform, DevOps & Security Monitoring Personal Project | 2025

Live: skyops-api-8dn9.onrender.com · GitHub: github.com/Priyanshukainwal0/skyops

- Designed and deployed a complete cloud-native infrastructure pipeline (Docker, Kubernetes, Helm, Terraform, GitHub Actions CI/CD) and a live Prometheus/Grafana monitoring stack — hands-on cloud platform and security observability experience.
- Applied security-conscious design throughout (least-privilege access, structured configuration management) — directly aligned with KPMG's cyber security and cloud assurance practice areas.

TicketDesk — Production REST API with AWS Infrastructure Personal Project | 2025

Live: ticketdesk-app.onrender.com · GitHub: github.com/Priyanshukainwal0/ticketdesk

- Designed and shipped a production Python (FastAPI) REST API with 23 automated tests, Terraform-provisioned AWS EC2 infrastructure, and auto-generated Swagger/OpenAPI documentation — enterprise-grade engineering practices applied independently.

WORK EXPERIENCE

Commercial Cleaner

VIP Cleaning Services · Adelaide, SA

- Worked directly with clients on a recurring basis, consistently scoring 95% in client quality surveys; introduced standardised checklists that improved site quality scores by 25%.

Warehouse Operator

Dec 2023 – Jan 2025

Electrolux Home Products · Adelaide, SA

- Maintained 99.5% accuracy across 200–300 orders per day; identified and implemented a process improvement that cut picking time by 20%.

EDUCATION

Bachelor of Information Technology

Federation University Australia

Federation University Australia · Adelaide, SA

- Relevant units: Python, Java, Databases, Networking, Cybersecurity, Software Engineering, Systems Analysis.

CERTIFICATIONS

Microsoft Azure AI Essentials

LinkedIn Learning · Feb 2025 – May 2025

Generative AI Automation Specialization

Vanderbilt University · Apr 2025 – May 2025

Career Essentials in Cybersecurity

Microsoft · Mar 2025 – May 2025

Google IT Support Professional Certificate

Coursera / Google · Nov 2025 – Jan 2026
