SUMMARY

Recent graduate with a Bachelor of Information Technology and two years of direct client-facing experience, ready to bring genuine ambition, curiosity, and a customer-first mindset to a corporate sales, business development, or account management role. I've spent two years working directly with recurring clients, listening carefully to their needs and adjusting my approach to consistently deliver above-expectation results — skills that translate directly into finding the right solution for a customer and building long-term relationships. I'm a fast learner with a genuine drive to grow, and my IT background gives me an edge in any technology-adjacent vertical (IT/Telco, Media, FMCG), since I can speak confidently and credibly about products and digital solutions most graduates can't.

CORE STRENGTHS

- Customer-Focused
- Ambition & Drive
- Curiosity
- Active Listening
- Problem Solving
- Relationship Building
- Clear Communication
- Resilience
- Fast Learner

WORK EXPERIENCE

Commercial Cleaner Aug 2023 – Present
VIP Cleaning Services · Adelaide, SA

- Worked directly with clients on a recurring basis, consistently scoring 95% in client quality surveys by listening to feedback and adjusting service to meet expectations — the same relationship-building skill needed to retain and grow accounts.
- Identified a gap in service consistency and introduced standardised checklists that lifted site quality scores by 25% — proactive, self-driven problem solving rather than waiting to be told what to fix.
- Built long-term trust with recurring clients through reliability and clear communication, directly transferable to account management and business development relationships.

Warehouse Operator Dec 2023 – Jan 2025
Electrolux Home Products · Adelaide, SA

- Maintained 99.5% accuracy across 200–300 orders per day in a fast-paced, high-volume environment, staying focused and resilient under sustained pressure.
- Identified and implemented a process improvement on my own initiative, cutting picking time by 20% — ambition and drive applied to make a tangible, measurable difference.

WHY I'M A STRONG FIT FOR IT/TELCO & TECH-ADJACENT VERTICALS

I hold a Bachelor of IT and have independently designed, built, and deployed three live software products over the past year — including a customer booking platform and a help-desk system. That means I can speak to technology, digital products, and connectivity with genuine confidence and curiosity, not a memorised script, which is a real differentiator in any account or business development role touching technology, media, or telco clients.

EDUCATION

Bachelor of Information Technology Federation University Australia
Federation University Australia · Adelaide, SA

- Led a 5-person capstone team as Project Manager, acting as the main point of contact for a real external client — direct stakeholder management and relationship-building experience.
