## SUMMARY

IT professional with a Bachelor of IT and a Google IT Support Professional Certificate, with practical knowledge of Microsoft 365 administration (Exchange Online, Teams, SharePoint, OneDrive), Active Directory, Group Policy, and exposure to Entra ID and Intune endpoint management. I don't yet have paid experience at a formal Level 2 title, but I've built and now operate three live production systems where I personally handle troubleshooting, incident documentation, and ongoing support — practical equivalents to ITIL's incident, problem, and change management principles, applied independently rather than in a classroom. I maintain detailed, current documentation as standard practice, communicate clearly across technical and non-technical audiences, and have direct experience coordinating across teams while leading a 5-person capstone delivery for a real external client. Strong networking fundamentals (TCP/IP, DNS, VPN) and a genuine interest in ITSM tooling and structured service delivery.

## TECHNICAL SKILLS

**Microsoft 365 & Identity:** Exchange Online, Teams, SharePoint, OneDrive, Azure AD / Entra ID, Intune (endpoint management), MFA, RBAC, conditional access

**Networking:** TCP/IP, DNS, DHCP, VPN, firewalls, subnetting, network diagnostics

**Troubleshooting & Support:** Hardware/software diagnostics, remote desktop tools, multi-environment support, operational security practices

**Systems Administration:** Active Directory, Group Policy, user account management, Windows 10/11, Windows Server fundamentals, macOS, Linux (Ubuntu)

**Service Management:** ITIL principles (incident, problem, change management), ticketing systems (ServiceNow), technical documentation, knowledge base maintenance

**Cloud & Automation:** AWS, Docker, Kubernetes, Terraform, GitHub Actions CI/CD, PowerShell, Bash, monitoring (Prometheus, Grafana)

## CORE COMPETENCIES

Customer Service

Time Management

Cross-Team Collaboration

Documentation Discipline

Independent Problem Solving

Relationship Building

Operational Security Awareness

Fast Learner

## PROJECTS

### TicketDesk — Help-Desk Ticketing & Incident Management Platform

Personal Project | 2025

Live: [ticketdesk-app.onrender.com](https://ticketdesk-app.onrender.com) · GitHub: [github.com/Priyanshukainwal0/ticketdesk](https://github.com/Priyanshukainwal0/ticketdesk)

- Designed and built a help-desk system modelling the full incident lifecycle — create, update, prioritise, assign, resolve — directly applying ITIL incident management principles in practice.
- Maintained accurate, auto-generated technical documentation for every part of the system, kept current as the platform evolved — the same documentation discipline this role requires for knowledge base articles.
- Built a monitoring stack (Prometheus + Grafana) for proactive issue detection, and a 23-test automated suite to manage change safely — a structured, change-management mindset applied independently.

### SkyOps — Infrastructure Monitoring & Operational Support

Personal Project | 2025

Live: [skyops-api-8dn9.onrender.com](https://skyops-api-8dn9.onrender.com) · GitHub: [github.com/Priyanshukainwal0/skyops](https://github.com/Priyanshukainwal0/skyops)

- Built and now operate a background health-check service polling system status every 60 seconds, escalating and documenting incidents as they occur — first-hand experience with proactive monitoring and incident response.
- Maintained full operational documentation for setup, deployment, and troubleshooting, ensuring anyone could pick up support of the system from my notes alone.

### Call-a-Technician — Cross-Team Coordination & Client Support

University Capstone | 2024–2025

Live: [callatechnician.com.au](https://callatechnician.com.au) · GitHub: [github.com/Priyanshukainwal0/call-a-technician](https://github.com/Priyanshukainwal0/call-a-technician)

- Led a 5-person team as Project Manager, coordinating across frontend, backend, and infrastructure workstreams to keep delivery consistent — the same cross-team collaboration this role requires across Level 1 and Level 3 support tiers.
- Acted as the direct point of contact with a real external client, building positive working relationships and managing expectations throughout delivery.

## WORK EXPERIENCE

Warehouse Operator

Electrolux Home Products · Adelaide, SA

- Maintained 99.5% accuracy across 200–300 orders per day, requiring sustained focus and effective task management across a fast-paced environment.

Commercial Cleaner

Aug 2023 – Present

VIP Cleaning Services · Adelaide, SA

- Worked across multiple client sites, building and maintaining positive working relationships while consistently scoring 95% in client quality surveys.

EDUCATION

Bachelor of Information Technology

Federation University Australia

Federation University Australia · Adelaide, SA

- Relevant units: Networking, Cybersecurity, Databases, Systems Analysis, Software Engineering.

CERTIFICATIONS

Google IT Support Professional Certificate

Coursera / Google · Nov 2025 – Jan 2026

Career Essentials in Cybersecurity

Microsoft · Mar 2025 – May 2025

Microsoft Azure AI Essentials

LinkedIn Learning · Feb 2025 – May 2025

Generative AI Automation Specialization

Vanderbilt University · Apr 2025 – May 2025
