SUMMARY

Customer-focused and tech-confident professional with a Bachelor of Information Technology and two years of direct client-facing experience delivering consistent, high-quality service. I genuinely enjoy helping people understand technology and explaining it in simple, accessible terms — I've spent the past year building and supporting live tech products end-to-end, which means I can talk through devices, connectivity, and digital services with real confidence and curiosity, not just a script. I stay calm under pressure, listen carefully to understand what someone actually needs, and follow through reliably. Comfortable working both independently and as part of a close-knit team.

CORE STRENGTHS

- Customer Service
- Clear Communication
- Tech Product Knowledge
- Problem Solving
- Calm Under Pressure
- Empathy & Active Listening
- Team Collaboration
- Adaptability
- Reliability & Follow-Through

WORK EXPERIENCE

Commercial Cleaner

Aug 2023 – Present

VIP Cleaning Services · Adelaide, SA

- Worked directly with clients on a recurring basis, consistently scoring 95% in client quality surveys by listening to feedback and adjusting service to meet their expectations.
- Introduced standardised checklists that improved site scores by 25% — proactively identifying a better way to deliver consistent quality.
- Built genuine trust with clients through reliability, professionalism, and clear communication over an extended working relationship.

Warehouse Operator

Dec 2023 – Jan 2025

Electrolux Home Products · Adelaide, SA

- Maintained 99.5% accuracy across 200–300 orders per day in a fast-paced, high-volume environment — staying calm and focused under sustained pressure.
- Reworked the picking sequence on my aisle, cutting processing time by 20% — a self-driven improvement that benefited the whole team.
- Zero lost-time incidents across the full tenure, with full WHS compliance at every inspection.

TECH BACKGROUND — WHY IT HELPS HERE

I hold a Bachelor of IT and have independently built and deployed three live software products — including a customer-facing booking platform and a help-desk system — meaning I'm genuinely comfortable explaining devices, apps, networks, and digital services to people who aren't technical, without making them feel talked down to.

- Hands-on experience with mobile devices, networking fundamentals (Wi-Fi, connectivity troubleshooting), and cloud/digital services.
- Practical experience translating technical concepts into plain language for non-technical users — exactly the skill needed to explain mobile plans, devices, and broadband solutions clearly.
- Portfolio: priyanshukainwal0.github.io · GitHub: github.com/Priyanshukainwal0
