SUMMARY

IT graduate with a Bachelor of Information Technology and a Google IT Support Professional Certificate, with sound knowledge of Microsoft environments, networking, and hardware support. I genuinely enjoy variety and working autonomously — I've independently designed, built, and deployed three live production systems over the past year, managing every part of each system myself with no one to hand the hard parts to. As Project Manager on a university capstone, I led a 5-person team and was the direct point of contact for a real client, liaising clearly with stakeholders and coordinating people across different workstreams — practical experience for the site managers, contractors, and external providers this role requires working with daily. I hold a current driver's licence, am genuinely willing to travel regularly, and bring a practical, get-it-done attitude to fast-paced, hands-on work.

TECHNICAL SKILLS

Microsoft Environments: Microsoft 365, Windows 10/11, Active Directory, Azure AD / Entra ID, MFA, RBAC

Hardware & Devices: Server/desktop hardware, network peripherals, mobile devices, installation and configuration

Documentation & Reporting: Clear, concise technical reporting, documentation, audits, process review

Networking: TCP/IP, DNS, DHCP, VPN, firewalls, subnetting, network connectivity diagnostics

Infrastructure: Network hardware configuration, infrastructure upgrades, basic project/technical administration

Cyber Security Awareness: NIST CSF 2.0, ASD Essential Eight, secure network configuration

CORE COMPETENCIES

Works Well Autonomously

Get-It-Done Attitude

Strong Communication

Attention to Detail

Fast Learner

Multi-Site Coordination

Problem Solving

Reliability

PROJECTS

Call-a-Technician — Technician Dispatch & Booking Platform University Capstone | 2024–2025

Live: callatechnician.com.au · GitHub: github.com/Priyanshukainwal0/call-a-technician · Role: **Project Manager & Full-Stack Developer**

- As **Project Manager**, led a 5-person team from initial client requirements through to a live production launch — liaised directly with a real external client and coordinated team members across multiple workstreams, resolving issues autonomously as they arose.
- Built a technician dispatch and coordination platform — directly relevant to coordinating technicians and contractors across multiple sites.
- Maintained accurate, clear documentation across the project lifecycle — the same reporting discipline this role requires for documentation, audits, and reviews.
- Delivered a real product still in production use by a real business today — proof of reliable, autonomous, accountable follow-through.

SkyOps — Infrastructure Monitoring Platform Personal Project | 2025

Live: skyops-api-8dn9.onrender.com · GitHub: github.com/Priyanshukainwal0/skyops

- Designed and deployed infrastructure independently, end-to-end, with no team to rely on for the hard parts — direct practice with the self-sufficient, autonomous working style a field-based, single-person site role requires.
- Built and personally operate a background monitoring service, proactively detecting and resolving issues across the system.

TicketDesk — Help-Desk Ticketing Platform Personal Project | 2025

Live: ticketdesk-app.onrender.com · GitHub: github.com/Priyanshukainwal0/ticketdesk

- Designed and built a system for logging and resolving technical issues with clear, structured documentation — the same practical, get-it-done troubleshooting approach this role calls for.

WORK EXPERIENCE

Commercial Cleaner Aug 2023 – Present

VIP Cleaning Services · Adelaide, SA

- Worked independently across multiple client sites, consistently scoring 95% in client quality surveys through clear communication and reliable, autonomous service delivery.

Warehouse Operator

Dec 2023 – Jan 2025

Electrolux Home Products · Adelaide, SA

- Maintained 99.5% accuracy across 200–300 orders per day, with zero lost-time incidents and full WHS compliance in a fast-paced, hands-on environment.
