Dear Ms Ivens,

I'm writing to apply for the Information Technology Support Officer role at Cabra Dominican College. A position that combines genuine technical problem-solving with daily relationships across staff and students, within a community built on clear values, is exactly the kind of role I want to bring my IT background to.

I hold a Bachelor of Information Technology and a Google IT Support Professional Certificate, with sound knowledge of Microsoft environments, operating systems, and device management. I've built and now personally operate **TicketDesk** (ticketdesk-app.onrender.com), a help-desk platform modelling the exact Level 1 support lifecycle this role works in daily — logging, prioritising, resolving, and documenting requests through to closure across multiple channels.

As Project Manager on a university capstone, I led a 5-person team to deliver **Call-a-Technician** (callatechnician.com.au), a live booking platform now used in production by a real business. I built positive working relationships with a real client throughout that project and maintained accurate documentation across delivery — the same record-keeping discipline I understand matters for ICT documentation and asset registers in a school environment. I also take cybersecurity and the safe, compliant use of technology seriously, having studied frameworks including NIST and the ASD Essential Eight as part of my degree.

I'm self-motivated, reliable, and genuinely enjoy helping people solve technical problems, whether that's a staff member or a student. I understand and respect that this role sits within a values-driven Catholic community, and I'd bring genuine care and professionalism to supporting Cabra's staff and students day to day.

I'm happy to provide referee details, a completed CESA Employment Declaration, and copies of my Working with Children Check, RRHAN-EC certificate, and first aid qualification as part of my full application. Thank you for considering my application — I'd welcome the opportunity to discuss this role further.

Kind regards,

Priyanshu
