SUMMARY

IT professional with a Bachelor of Information Technology and a Google IT Support Professional Certificate, with practical experience configuring and supporting Microsoft 365, Active Directory, and Windows desktop/server environments. I led a 5-person capstone team as Project Manager to deliver Call-a-Technician, a live booking platform now used in production by a real business — direct experience building professional working relationships and turning a stakeholder's problem into a working solution. I've also built and now personally operate a help-desk ticketing platform and a live infrastructure monitoring system, giving me genuine hands-on experience with the troubleshooting, documentation, and change/problem management principles this role calls for. I'm a "can do," customer-focused communicator who takes pride in turning a frustrating technical problem into a positive outcome.

TECHNICAL SKILLS

Microsoft 365 & Identity: Microsoft 365 administration, Exchange Online, Active Directory, Azure AD / Entra ID, MFA, RBAC, conditional access

Networking: WAN/LAN, IP networking, DHCP, DNS, VPN, firewalls, subnetting, network diagnostics

Hardware & Devices: Desktop/hardware troubleshooting, printer support, mobile device troubleshooting, peripherals

Windows Environments: Windows 10/11 desktop, Windows Server fundamentals (current and previous generations), endpoint management

Service Management: Change, problem, and release management principles, ticketing/helpdesk workflow logic, asset documentation

Cloud & Automation: AWS, Docker, Kubernetes, Terraform, GitHub Actions CI/CD, PowerShell, Bash, monitoring (Prometheus, Grafana)

CORE COMPETENCIES

- Customer Service Excellence
- "Can Do" Attitude
- Time Management
- Problem Solving
- Relationship Building
- Clear Communication
- Documentation Discipline
- Collaboration

PROJECTS

Call-a-Technician — Technician Dispatch & Booking Platform University Capstone | 2024–2025

Live: callatechnician.com.au · GitHub: github.com/Priyanshukainwal0/call-a-technician · Role: **Project Manager & Full-Stack Developer** · Stack: Node.js, Express, MongoDB, JWT, React

- As **Project Manager**, led a 5-person team from initial client requirements through to a live production launch — ran weekly standups, owned the sprint backlog in Agile/Scrum, and was the primary point of contact for a real external client, building and maintaining a professional working relationship throughout delivery.
- Built an 8-stage job workflow (Open → Assigned → Accepted → En Route → On Site → In Progress → Completed → Closed) with a full audit trail — directly analogous to the change/problem management lifecycle this role describes.
- Built the public booking site and an internal operations dashboard end-to-end, including a customer request form and automated email confirmation — direct experience designing a system around real end-user needs.
- Delivered a real product still in production use by a real business today — proof of end-to-end ownership and the ability to turn a stakeholder's problem into a working, maintained solution.

TicketDesk — Help-Desk Ticketing Platform Personal Project | 2025

Live: ticketdesk-app.onrender.com · GitHub: github.com/Priyanshukainwal0/ticketdesk

- Designed and built a help-desk system modelling the full incident lifecycle — log, prioritise, assign, resolve — with auto-generated documentation for every part of the system, the same documentation discipline asset records and procedures require.
- Wrote a 23-test automated suite to safely manage change before it reaches production, reflecting structured change management thinking.

SkyOps — Infrastructure Monitoring Platform Personal Project | 2025

Live: skyops-api-8dn9.onrender.com · GitHub: github.com/Priyanshukainwal0/skyops

- Built and personally operate a background health-check service polling system status every 60 seconds, working independently to detect and respond to issues before they escalate.

WORK EXPERIENCE

Commercial Cleaner

Aug 2023 – Present

VIP Cleaning Services · Adelaide, SA

- Worked directly with clients on a recurring basis, consistently scoring 95% in client quality surveys — building and supporting professional working relationships, the same customer-focused mindset this role requires at all levels.

Warehouse Operator

Dec 2023 – Jan 2025

Electrolux Home Products · Adelaide, SA

- Maintained 99.5% accuracy across 200–300 orders per day; identified and implemented a process improvement that cut picking time by 20%, with zero lost-time incidents and full WHS compliance — strict adherence to safety standards in a fast-paced environment.

EDUCATION

Bachelor of Information Technology

Federation University Australia

Federation University Australia · Adelaide, SA

- Relevant units: Networking, Cybersecurity, Databases, Systems Analysis, Software Engineering.
