🌐 Personal Portfolio

SUMMARY

Recent IT graduate with a Bachelor of Information Technology and a Google IT Support Professional Certificate, with a genuine interest in both practical IT support and emerging technology, particularly AI. I have a solid understanding of Microsoft Windows, Microsoft 365, and Active Directory fundamentals, along with PowerShell scripting. I led a 5-person capstone team as Project Manager to deliver Call-a-Technician, a live booking platform now used in production by a real business — direct experience setting up systems, coordinating with people, and solving problems independently. I hold two AI-specific certifications (Microsoft Azure AI Essentials and a Generative AI Automation Specialization from Vanderbilt University), giving me a genuine head start in researching and evaluating AI tools for real business use, not just theoretical interest. I'm curious, organised, and genuinely enjoy helping people solve technical problems.

TECHNICAL SKILLS

Microsoft Ecosystem: Microsoft Windows 10/11, Microsoft 365 administration, Active Directory, Azure AD / Entra ID, basic VBA

AI & Emerging Technology: AI tool evaluation, generative AI automation, business application of AI tools, productivity tooling research

Networking: TCP/IP, DNS, DHCP, VPN, firewalls, subnetting, network diagnostics

System Administration: PowerShell scripting, user account setup/management, endpoint configuration, asset/documentation maintenance

IT Support: Hardware/software troubleshooting, device setup and imaging, ticketing/MSP coordination workflow logic, onboarding/offboarding

Cyber Security Awareness: NIST CSF 2.0, ASD Essential Eight, least-privilege access, basic vulnerability awareness

CORE COMPETENCIES

- Curious
- Organised
- Customer Service
- Attention to Detail
- Problem Solving
- Clear Communication
- Multi-Tasking & Prioritisation
- Willingness to Learn

PROJECTS

Call-a-Technician — Technician Dispatch & Booking Platform University Capstone | 2024–2025
Live: callatechnician.com.au · GitHub: github.com/Priyanshukainwal0/call-a-technician · Role: **Project Manager & Full-Stack Developer**

- As **Project Manager**, led a 5-person team from initial client requirements through to a live production launch — coordinated people and timelines, communicated progress clearly, and resolved issues independently throughout delivery.
- Built an 8-stage job workflow with a full audit trail and maintained accurate documentation across the project — the same record-keeping and asset-tracking discipline this role requires.
- Delivered a real product still in production use by a real business today — proof of follow-through and accountability.

TicketDesk — Help-Desk Ticketing Platform Personal Project | 2025
Live: ticketdesk-app.onrender.com · GitHub: github.com/Priyanshukainwal0/ticketdesk

- Designed and built a ticketing system modelling the full support lifecycle — log, prioritise, follow up, resolve — directly analogous to coordinating and following up on support requests with an external MSP.
- Maintained clear, current technical documentation throughout — the same habit needed for user guides and IT documentation.

SkyOps — Infrastructure Monitoring Platform Personal Project | 2025
Live: skyops-api-8dn9.onrender.com · GitHub: github.com/Priyanshukainwal0/skyops

- Built and personally operate a background monitoring service, applying a continuous-improvement mindset to keep a live system running reliably.

WORK EXPERIENCE

Commercial Cleaner Aug 2023 – Present

VIP Cleaning Services · Adelaide, SA

- Worked directly with clients on a recurring basis, consistently scoring 95% in client quality surveys through clear communication and reliable service.

Warehouse Operator

Dec 2023 – Jan 2025

Electrolux Home Products · Adelaide, SA

- Maintained 99.5% accuracy across 200–300 orders per day, requiring strong organisational skills and attention to detail in a fast-paced environment.

EDUCATION

Bachelor of Information Technology

Federation University Australia

Federation University Australia · Adelaide, SA

- Relevant units: Networking, Cybersecurity, Databases, Systems Analysis, Software Engineering.

CERTIFICATIONS

Microsoft Azure AI Essentials
